

Brazilian Symposium On Ocean Waves

14 – 16 March 2016 Federal University of Rio de Janeiro

Author Index

A

- | | |
|-------------|--|
| Alonso, R | Automatic Calibration of the Parameters and Inputs of a Coastal Wave Model with an Evolutionary Bayesian Method. |
| Annenkov, S | Modelling the Impact of Fast Wind Changes on Wind Waves with the Generalized Kinetic Equation |
| Avilia, V | The Optical Wavemeter |

B

- | | |
|------------|---|
| Babanin, A | Wind-Generated Waves - Interface Between the Ocean and Atmosphere |
| Burr, K | Wave mode conversion and reflection in the interaction of linear water waves with variable bathymetry |

D

- | | |
|---------------|--|
| Dalinghaus, C | Wave Climate Variability and Trends in Front of Santa Catarina Island, South of Brazil, Over Six Decades (1948-2008) and its Relationship with Different Climate Indices |
|---------------|--|

da Silveira, I
De Andrade, A
Dentale, F
Donelan, M

Brazil Current Instability Waves Off Southeast Brazil
Wave and Wind Characterization Near AÇÚ Port Region - Rio de Janeiro - Brazil
Sampling Error in the Estimation of Significant Wave Height Extreme Values from Buoy Data
Unmasking the Rogue – The Making of the Andrea Wave

F

Fabbri, R
Farina, L
Fernandes, A

Image-Based Fluid Modelling
Local Dimensionality of Ocean Waves
Experimental Facilities in the Laboratory of Waves and Currents

G

Guedes, R

Wave Reflection and Swash Motions on a Low-Sloping Beach

K

Kallos, G

The European Offshore Wind and Wave Energy Resource Snalysis – Combined Exploitation
Analysis of Extremes

L

Lentini, C
Lisboa, R
Liu, P

Internal Solitary Waves off the Amazon River Mouth: Coherence Crest Lengths and
Generation Mechanism
Numerical Simulation of Wave Propagation at Cassino Beach (South of Brazil)
"There is no Such Thing as Freaque Waves!"

M

Machado, D
Melo, E

Wave Climate and Events Migration Mud at Cassino Beach, RS, Brazil: An Investigation
Non-Tidal Coastal Sea Level Variation Along South-eastern South America – Progress
Report

Mendes, A
Monty, J

Development of a Brazilian Wave Buoy
Laboratory Studies of Energy Dissipation Under Breaking Waves

N

Nascimento, F
Neder Candella, R

The State of the Art, in Brazil, in Wave Measurement Using Buoy Systems
Freak Waves in the Southern Ocean: A Preliminary Study

Nemes, D

Study of Gravity Waves and Infragravity Band Spectrum on a Complex Intermediate Beach System

Nemes, D

Waves Breaking Parameters on Beach Break, Point Break and Reef Break to Design Artificial Surfing Reef

Niclasen, B

Assessing the Risk of Overtopping Waves by Lessons Learned in Time

O

Ocampo-Torres, P
Oliveira, B

Laboratory Study of Non-Breaking Surface Wave Induced Turbulence
Decadal Variability of the Wave Climate Through Model Wavewatch III Santa Catarina Coast

P

Paiva, A
Parente, C
Passaro, M
Passos, R
Pereira, H
Pinho, U
Polito, P
Portilla, J
Ponce De Leon Alvarez, S
Punzmann, H

The Generation of Internal Tides at the Vitória-Trindade Ridge in the South Atlantic
Daat - New Technique for Ocean-Wave Directional Analysis
"Measuring Coastal Significant Wave Height from Radar Altimetry with ALES Retracker"
Design and Construction of an Active Wave Absorber in a Wave Channel
Observation of PNBOIA'S Metocean Buoys Deployed in Southern Coast Brazil
Emergence of Short-Crestedness in Originally Unidirectional Non Linear Waves - Revisited
Spectrum of Wind Driven Rossby Waves on a Non Linear QG Model
Wave Spectra Partitioning and Long Term Statistical Distribution
Sensitivity of a Special Wave Model to the Nonlinear Interactions
Flow Generated by surface waves

R

Rapizo Gomes, H

Current-Induced Dissipation in Spectral Wave Models

S

Salazar, A

Shadman, M

Shemer, L

Sobral, F

Sprovieri, F

Sprovieri, F

On the Behaviour of Wave Systems in the Eastern Equatorial Pacific Under ENSO Regime

Geometry Optimization of a Wave Energy Point Absorber for the Rio de Janeiro Coast

Characterization of Wave Field Evolution in a Wind-Wave Tank Under Steady and Unsteady Wind Forcing

Swash Analysis and the Associated Beach Morphological Changes: an Infragravity Waves Approach

Reconstruction and Analysis of Wave Climate in Southern Brazil

Wave Power Potential in Southern Brazil

V

Veras Guimaraes, P

Violante-Carvalho, N

Stereo Video Observations of Short Waves Breaking Modulated by Longer Waves

Wave Diffraction around Islands from ERS-2 SAR Images
